MUSIC OVERLOAD WITH DiGi

CANT get enough of music? Well, now you can get all the music you want anytime and anywhere with the new DiGi Music Unlimited mobile music service.

The service allows DiGi customers to enjoy unlimited music downloads from an extensive library of tunes from Universal Music and Sony Music for RM5 a month.

Music files will be offered in 256Kbps quality Windows Media Audio format and will have DRM (digital rights management) copy

protection.

In addition to the unlimited number of downloadable tracks, users are entitled to download five additional DRM-free songs every month which can be transferred to any device or shared via Bluetooth with friends.

DiGi customers don't have to pay for data charges for browsing when they visit the DiGi Music Unlimited website or when they download the music.

Upon visiting the website, users will be presented with a choice of

downloading a song to either their mobile phone or computer.

In addition, users can share their playlists and songs with friends via SMS or e-mail.

DiGi said that its Unlimited Music subscribers will also be entitled to invitations to exclusive gigs and concerts. — **CHONG JINN XIUNG**
